Welcome to the Home of the Gauchos! From the Residential Operations Department

Here are a few items that we would like to share with you...
There will be a letter from the Housekeeping Department with some important messages, schedules, and reminders on your desk when you move into your room.

Among other things, we want you to know that...

- There is a Housekeeping Supervisor in each residence hall. The supervisor’s office is near the front desk in most buildings. Feel free to address the supervisor with any concerns you have about the building.
- The housekeeping staff provides service to student rooms every other week according to an established schedule.
- Please do your part to keep your room, hallway, bathrooms, lounges, and kitchenttes orderly.
- If you have any maintenance or damage concerns in the student rooms, hallways, bathrooms, lounges or kitchenttes, please submit a request online at: http://workrequest.housing.ucsb.edu:6062/resident.html
- You may also submit a request for repairs at your residence hall front desk.
- In the event of an emergency request, you should go to the front desk immediately.
- There are part-time jobs available in the housekeeping, grounds, and maintenance departments. If you are interested, talk to your Housekeeping Supervisor.

During the time you are here, we look forward to becoming your friend and we would like to help make your room and residence hall a warm and comfortable home!
